Invent a new game!

Invent a new game using a ball and a stick.

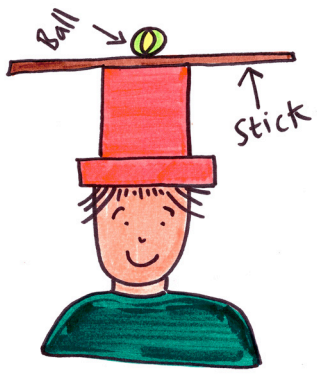
There are many games you can play with a ball and a stick. There are traditional ball and stick games which include hockey, baseball, golf, cricket, rounders. However, we want you to invent a crazy invention with a ball and stick that has never been invented before!

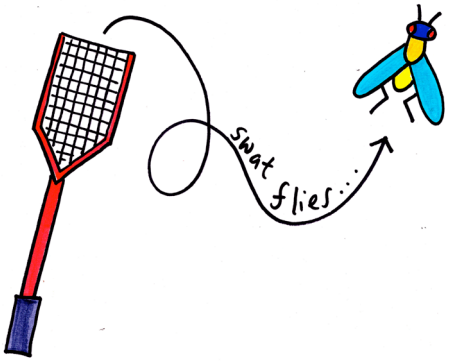
Maybe the game involves a dance routine and stick and ball juggling whilst trying to swat flies!

Or perhaps it's a game for Ants where the Ants have to run over an obstacle course of sticks whilst rolling a ball!

Or maybe it's a keep fit game where you hop 20 times over a stick before bouncing a ball and running around the garden 10 times!

Or maybe it's a hat made of sticks and you have to balance the ball on the stick hat whilst eating your dinner!





Name your game .....

Who can play? .....

How to play? .....

Now draw it on the invention sheet included!
