# Little Inventors Disney Princess Challenge

Disney Princesses always face great challenges with courage, kindness and strive to help people around them. This is your chance to use your imagination, dream BIG and get inventing with your favourite princess to make the world a better place. It's time to take the Little Inventors challenge!

## Rapunzel Nature protector!

Rapunzel spends most of her life locked away, dreaming of the outside world. When she finally escapes, she discovers everything for the first time! Growing up in a tower in the forest, she really cares for nature and her environment.

**Nature always cares for us, so what invention can you imagine that can protect nature?**

## Get Inspired!

**Think about the first time you walk into a forest.** What trees, plants or animals can you see?

**Just like the golden flower, everything in nature is precious and worth protecting!** What is a plant, place or creature you really like, what is special about it?

**What could damage it or cause it harm?** It could be someone or something, or even weather that is too hot or too cold!

Now that you have thought of something in nature that needs protecting, it's time to think of an invention that can help!

Jasmine,  
Ariel and  
Merida also  
have challenges  
for you!

Share your invention drawing with us for a chance to win a truly one-of-a-kind prize - an original piece of Disney artwork of you drawn by a Walt Disney Animation Studios animator! Five runners up will also win a fantastic Disney goodie bag!
