

# Problem detection comic

Thinking up a short story can help to come up with new invention ideas. Think about the beginning, the middle and the end.

**Beginning** - In the beginning there's a problem. Who has the problem and what are they finding difficult or annoying to do?

**Middle** - Think about a way to solve the problem. This is where you come up with your invention idea. The solution could be fun, unique, clever or totally bonkers!

**End** - Show how the problem was solved and how your invention is used.

Take a look at these example comics and then try drawing your own on the next page.

Now try these for yourself!

The Problem!

The invention solution! Using my invention!
